COURSE	Applied Software Engineering Project (10 ECTS)
SUPERVISOR	Prof. Dr. Dirk Riehle
INSTITUTION	Friedrich-Alexander-Universitat Erlangen-Nurnberg (FAU)
DATE	2026-07-09

11,967

projects

96.1%

projects classified

99.2%

files classified

70

ISIC divisions used

Method: local, deterministic rule-based classifier (keyword scoring) applied to two tiers of source data - (1) project metadata and (2) primary-data file content - across 2 repositories.

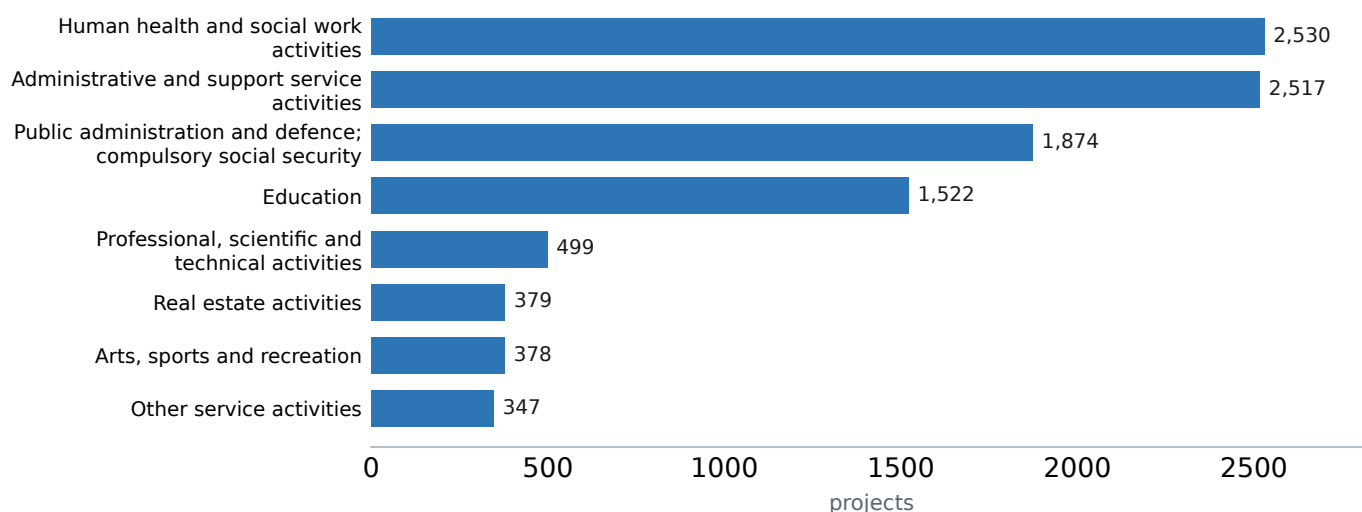

Executive summary

Coverage

Projects classified into an ISIC division: 11,500 / 11,967 (96.1%)

Downloaded primary-data files classified: 2,606 / 2,626 (99.2%)

Distribution across ISIC sections (all repositories)

Distributions by repository x project type (Step 3)

Repository	Project type	Projects	Dominant primary class
1 (ukds)	QDA_PROJECT	0	-
1 (ukds)	QD_PROJECT	0	-
2 (aussda)	QDA_PROJECT	0	-
2 (aussda)	QD_PROJECT	936	84 - Public administration and defence; compulsory social security

Top 20 of 70 ISIC divisions identified

Repository 1: UKDS - ranked classes & commentary

#	ISIC class (division)	Count	Share
1	86 - Human health activities	2,427	23.5%
2	78 - Employment activities	2,224	21.5%
3	85 - Education	1,446	14.0%
4	84 - Public administration and defence; compulsory social security	1,414	13.7%
5	68 - Real estate activities	344	3.3%
6	01 - Crop and animal production, hunting and related service activities	292	2.8%
7	94 - Activities of membership organizations	220	2.1%
8	93 - Sports activities and amusement and recreation activities	185	1.8%
9	69 - Legal and accounting activities	172	1.7%
10	73 - Activities of advertising, market research and public relations	142	1.4%
11	63 - Computing infrastructure, data processing, hosting, and other information service activities	127	1.2%
12	64 - Financial service activities, except insurance and pension funding	108	1.0%
13	91 - Library, archives, museum and other cultural activities	97	0.9%
14	36 - Water collection, treatment and supply	90	0.9%
15	59 - Motion picture, video and television programme production, sound recording and music publishing activities	77	0.7%
16	79 - Travel agency, tour operator, and other travel related activities	64	0.6%
17	62 - Computer programming, consultancy and related activities	59	0.6%
18	72 - Scientific research and development	58	0.6%
19	60 - Programming, broadcasting, news agency and other content distribution activities	50	0.5%
20	55 - Accommodation	50	0.5%

Commentary

Classified projects: 10,343; unclassified: 30. Distinct primary classes identified: 70.

Most common primary classes: 86 - Human health activities (2,427); 78 - Employment activities (2,224); 85 - Education (1,446).

All UK Data Service files require registration and login, so no primary-data file content could be read. Every UKDS project is therefore typed OTHER_PROJECT from its single (login-walled) container file and classified from catalogue metadata alone. The resulting classes reflect the study topics described in the catalogue rather than the file contents.

Interpretation note: ISIC classifies economic activities, whereas qualitative studies describe research subjects. The classifier assigns the closest economic activity (for example, labour-market research maps to division 78, Employment activities). This is an approximation inherent to applying an industrial taxonomy to research metadata, and the reported classes should be read as thematic groupings rather than exact industry codes.

Repository 2: AUSSDA - ranked classes & commentary

#	ISIC class (division)	Count	Share
1	84 - Public administration and defence; compulsory social security	460	39.8%
2	78 - Employment activities	172	14.9%
3	85 - Education	76	6.6%
4	86 - Human health activities	69	6.0%
5	94 - Activities of membership organizations	66	5.7%
6	72 - Scientific research and development	41	3.5%
7	68 - Real estate activities	35	3.0%
8	73 - Activities of advertising, market research and public relations	31	2.7%
9	93 - Sports activities and amusement and recreation activities	28	2.4%
10	59 - Motion picture, video and television programme production, sound recording and music publishing activities	22	1.9%
11	64 - Financial service activities, except insurance and pension funding	21	1.8%
12	79 - Travel agency, tour operator, and other travel related activities	14	1.2%
13	10 - Manufacture of food products	14	1.2%
14	60 - Programming, broadcasting, news agency and other content distribution activities	13	1.1%
15	62 - Computer programming, consultancy and related activities	10	0.9%
16	95 - Repair and maintenance of computers, personal and household goods, and motor vehicles and motorcycles	9	0.8%
17	01 - Crop and animal production, hunting and related service activities	9	0.8%
18	46 - Wholesale trade	8	0.7%
19	65 - Insurance, reinsurance and pension funding, except compulsory social security	6	0.5%
20	18 - Printing and reproduction of recorded media	6	0.5%

Commentary

Classified projects: 1,157; unclassified: 437. Distinct primary classes identified: 40.

Most common primary classes: 84 - Public administration and defence; compulsory social security (460); 78 - Employment activities (172); 85 - Education (76).

AUSSDA projects that expose primary-data files (PDF, RTF, DOCX) are typed QD_PROJECT and additionally classified from their file content; projects exposing only tabular or statistical files are OTHER_PROJECT, and those without retrievable files are NOT_A_PROJECT. A substantial share of AUSSDA records carry only short German-language topic labels, which the English keyword classifier cannot match - the main reason for unclassified projects in this repository.

Interpretation note: ISIC classifies economic activities, whereas qualitative studies describe research subjects. The classifier assigns the closest economic activity (for example, labour-market research maps to division 78, Employment activities). This is an approximation inherent to applying an industrial taxonomy to research metadata, and the reported classes should be read as thematic groupings rather than exact industry codes.
